

# CLIENT PORTAL

3DIQ's Client Portal allows users to create a password protected login, allowing clients to view jobs, candidates, and real-time status updates. This feature expedites the candidate review process even further and provides your clients with the flexibility and freedom they need to make hiring decisions more quickly and seamlessly.

3DIQ's Client Portal frees recruiters up from having to be readily available at any given moment to provide information and data to clients, helping to manage and streamline the hiring process.

# CLIENT PORTAL

- Create and manage client contact logins (enable/disable access, reset passwords) from within Bullhorn
- Password protected login allows you to easily control who sees resumes
- Give clients the ability to view all of their candidates in one place.
- Give HR manager access to all jobs and candidates
- Clients can see status updates (client submission, interviewing, rejected, placed, etc.) in real time
- Branded with staffing company's logo
- Combined with link expiration, secure your candidate's data and protect sensitive information
